SPLICING MACHINE PARTS			
ITEM NAME	DESCRIPTION	PART NO.	IMAGE
Splicing machine/ splicing service and rental	Cable Conveyor Systems, Inc. offers a service for splicing conveyor cable in the customer's plant. Utilizing our patented splicing technique, our customers have realized increased production on some of their most stubborn conveyor lines. Our actual splicing style takes just 1 hour from start to finish and is guaranteed for 2 year on full can lines and 4 years on empty can lines. * see warranty Along with the Extruda-Mold style cable, we can supply you with other style cables and their splicing kits.
